## Skills

React.js, Redux, JavaScript, HTML5, CSS, Ruby, Ruby on Rails, jQuery, SQL, postgresSQL, Heroku, Git, Node.js, Express

## Projects

### Dalgona Game

HTML5, Canvas API, JavaScript, CSS, jQuery, Git

[Dalgona Game](#) | [github](#)

#### *Project Description*

- Built a custom percentage system to calculate the differences between the given shape and the user's drawing over the shape.
- Engineered layers of gaming complexity through different shapes of drawing that users have to draw.
- Produced a game that represents one of the famous games that was played in a famous netflix drama series.

### Yourbook

[yourbook](#) | [github](#)

JavaScript, React / Redux, Ruby, Ruby on Rails, postgresSQL, CSS

Heroku, Git

#### *Project Description*

- Implemented custom back and front end user authentication by combining Rails conventions, Active Record, and customized React-Router higher order components.
- Ensured user privacy and autonomy through frontend and backend authentication measures and React Router, allowing users to edit and delete their posts.

### MailMe

[MailMe](#) | [github](#)

JavaScript, Node.js, Express, CSS, React / Redux, Heroku, Git

#### *Project Description*

- Implemented local strategy for user authentication with Passport.js, using BCrypt for password hashing
- Created a custom mailing list for users to create and be able to add emails/subscribers to the mailing list and send out one mail to everyone in that mailing list.
- Ensured user privacy and autonomy through frontend and backend authentication measures to ensure that users can only see their mailing lists.

## Experience

Bartender/Server | May 2017 - November - 2021

Coffee Tree

- Managed a group of 3 people to maintain customer satisfaction.
- Organize store products to implement easier inventory and to increase sales.
- Took initiative to talk to new customers and listened to their stories which made them feel comfortable and become regulars of the store.

## Manager | March 2015 - June 2017

Le Bbang

- Ensured that the workers' words were heard and told to the boss.
- Maintained inventory, insured proper inventory control, and provided customer service for patrons.
- Assist customers with special orders, and oversee the special orders system to ensure that customers receive their orders.

## Education

App Academy | July 2022 | New York, NY

Immersive software development course with focus on full stack web development.
